SPECIFICATIONS

OPERATING

REFERENCE STANDARDS	ANSI X9.27
INTERFACE OPTIONS	USB RS-232 Keyboard Wedge PS/2 RS-485 (additional interfaces available)
POWER INPUT	12 VAC, 1 Amp
DOCUMENT SPEED	17 inches per second
MICR FONTS SUPPORTED	E13-B CMC-7
MTBF	Electronics: 125,000 hours Check read head: 1,000,000 passes MSR read head: 1,000,000 passes

MECHANICAL

DIMENSIONS	Length: 6 in (mm) Width: 4 in (mm) Height: 4.25 in (mm)
WEIGHT	3 lbs (1,134 kg) (MSR and adapter included)
COLOR	White Gray
TEMPERATURE	Operating: 32ºF to 122ºF (0ºC to 50ºC) Storage: -22ºF to 158ºF (-30ºC to 70ºC)
HUMIDITY	Operating: 10% to 90% non condensing Storage: up to 100% non condensing

ELECTRONIC CHECK TRANSACTIONS

MINI MICR

MINI MICR WITH MSR

**Execute reliable electronic check transactions with MagTek's Mini MICR**

‣ Mini MICR reads real-world checks with the highest accuracy in the industry

‣ Mini MICR's rugged and durable design will provide years of daily use

‣ With over 1 million check readers installed worldwide, Mini MICR is in service today with major retailers and financial institutions reading billions of checks annually

‣ Mini MICR offers a range of interface options for easy and flexible connectivity to POS terminals, PCs, cash registers, etc.

Benefits

‣ The MICR data is automatically read from checks in a quick, single-pass

‣ Transaction time and manual entry errors are significantly reduced

‣ Mini MICR can easily format the MICR data to match any application input requirements

‣ Mini MICR's horseshoe design creates the smallest footprint with no additional counter space required to allow for check movement

Mini MICR

About MagTek*

MagTek check reading products are at work reading millions of checks every day in applications from the largest retail chains and financial institutions to the smallest businesses.

Our longevity and dedication to the future of transaction technology ensures that your current product choices and upcoming product needs will always be met. Our engineering teams are always at work to make sure our products not only support, but also stay ahead of rapidly evolving technologies.

Our sales experts work with you to select and implement the appropriate transaction technology. Our customer service team provides the on-going support necessary for the successful installation and operation of our products.

Rely on the strength and reliability of MagTek products, skillfully built in Carson, CA.

*Registered to ISO 9001:2000

Applications

‣ At the POS, Mini MICR's reliability and functionality are ideal for check verification and check conversion applications

‣ At the Teller Window, Mini MICR's speed and accuracy can significantly reduce transaction time when processing deposits with multiple checks

Ease of Use

‣ The easy drop-and-push movement to feed the check facilitates operator training

‣ No complicated alignments required to feed the check

Optional 3-Track MSR (Magnetic Stripe Reader)

‣ Reads ISO standard cards and AAMVA driver's license format

‣ Each track can be enabled/disabled individually through configuration parameters

‣ Cards can be swiped in both directions

Global Usage

‣ Support of E13B and CMC7 MICR fonts provides global coverage

‣ Mini MICR is in service today domestically and internationally
